

In re patent application of:  
Gunnar van der Steur  
USSN: 10/733,939  
APPARATUS AND METHOD FOR  
ELECTROSTATIC SPRAYING OF  
CONDUCTIVE COATING MATERIALS

II. AMENDMENTS TO THE SPECIFICATION

In the specification, beginning at p. 38, line 25, and extending through p. 39, line 7, please delete the entire sentence.

This deletion of the last sentence of the Abstract will satisfy the examiner's requirement to confine the Abstract to 25 lines, and the deleted verbiage is unnecessary in the abstract.

A new Abstract in clean form is submitted herewith on a separate sheet.
